Revaluation is carried out with sufficient regularity to ensure that their carrying amounts do not differ materially from their fair values as at the date of the statement of financial position. Subsequent to the initial recognition of an asset, fixed assets are carried at historical cost or, if revalued, at the revalued amounts less any subsequent depreciation.

#### 2.6.2 Depreciation

Depreciation is provided for on all assets on straight-line basis and is calculated on the cost or revalued amount of all fixed assets, in order to write off such amounts less any terminal value over the estimated lives of such assets.

The annual rates of depreciation currently being used by IMS TRUST are:

Asset Description	Rate p.a.
Furniture and Fittings	20%
Office Equipment	25%

#### 2.7 Grants and Subsidies

Grants and subsidies are recognized in the financial statements at their fair value. When the grant or subsidy relates to an expense it is recognized as income over the period necessary to match it with the costs, which it is intended to compensate for on a systematic basis.

# INSTITUTE OF MEDICAL SCIENCES TRUST CORPORATE INFORMATION FOR THE YEAR ENDED 31<sup>ST</sup> MARCH 2015

Grants and subsidies related to assets are generally differed in the statement of financial position and credited to the statement of comprehensive income over the useful life of the assets.

In the case of grants received to fund an entire project or activity, which includes the purchase if an asset, and the cost of such asset is charged with the project costs to the statement of comprehensive income, the grant value is recognized as income in the same period as the cost of the asset is charged to the statement of comprehensive income. On conclusion of the project, in the event that the asset is not handed over to the beneficiary or returned to the original donor, the cost of the asset is included in a memorandum inventory of fixed assets identified as such in the financial statements.

#### 2.8 Income Recognition

#### 2.8.1 Contributions/Incoming Sources

Income realized from restricted funds is recognized in the statement of comprehensive income only when there is certainty that all of the conditions for receipts of the funds have been complied with and the relevant expenditure that it is expected to compensate has been incurred and charged to the statement of comprehensive income. Unutilized funds are carried forward as such in the statement of finance position.

Gifts and donations received in kind are recognized at valuation at the time that they are distributed to beneficiaries, or if received for resale with proceeds being used for the purpose of the company at the point of such sale. Items not sold or distributed are inventoried but not recognized in the financial statements.

All other income is recognized when the company is legally entitled to the use of such funds and the amount can be quantified. This would include income receivable through fund raising activities and donations.

Expenses in carrying out the projects and other activities of INSTITUTE OF MEDICAL SCIENCES TRUST are recognized in the statement of Comprehensive Income during the period in which they are incurred.
